

ATPCO Signs Express Contracts Deal with Gol

Posted on January 25, 2022 by Business Editor

ATPCO has signed a new Express Contracts agreement with Brazilian low-cost-carrier Gol, ATPCO announced Tuesday.

Gol in 2021 migrated its passenger service system to Sabre's SabreSonic. According to ATPCO, its Express Contracts feature allowed the carrier to streamline and automate the movement and implementation of its negotiated contracts to the new PSS.

"The automation turns contracts to bookable fares in less than a day," said Gol revenue operations manager Rogerio Maldonado in a statement.
