

CAP celebrates 50th Anniversary of American Airlines connecting Curaçao with the US!

Posted on March 5, 2021 by Business Editor

Willemstad, March 5, 2021— It was an extra meaningful celebration for all, as Curaçao Airport Partners (CAP) presented the American Airlines (AA) team with a delicious cake to celebrate its 50th anniversary of connecting Curaçao with the United States. In spite of the circumstances, it was a day that could not go unnoticed; and CAP paid attention to the golden anniversary of the airline that has been bringing many locals to their favorite vacation and/or business destinations.

“Especially during these challenging times for the industry, such milestones have greater meaning” were the words of co-CEO of CAP, Mr. Paulo Mazzali, who together with Mrs. Peggy Croes, Director of Air Service Marketing & Development of CAP, presented the token of appreciation to Mr. Nelson Cortes, American’s Country Manager for Aruba, Bonaire and Curaçao and his team here at the airport.

Congrats and **Thank You** to American Airlines! May we continue to collaborate to connect/transport many more passengers in the years ahead.
