

Cyprus Airports Witness Remarkable Recovery as Passenger Traffic

Posted on July 12, 2023 by Business Editor

In the first half of 2023, the top markets were the United Kingdom, Greece, Israel, Poland, and Germany. Austria, Romania, Hungary, Armenia, and France complete the top ten markets.

Within this period, passenger traffic at Cyprus' airports had a significant 3% increase compared to the corresponding period in 2019 and a total of 4,808,431 passengers.

In line with its strategy on route development and airline support, Hermes Airports collaborates with 55 airlines operating flights to and from Larnaka and Pafos airports, offering 155 routes to 39 countries. New routes have already been launched for the summer season, and based on the available data so far, passenger traffic is expected to approach the levels of 2019.
