

How can hotels maintain wellness in the future?

Posted on August 19, 2022 by News Editor

As the population ages, health considerations will come into play when people make travel decisions and hotels can play a key role in keeping guests healthy and happy. Adam and Larry Mogelonsky write that hotels could be true health care in the future, as they can help to restore body and mind through wellness initiatives such as yoga, therapy headsets, meditation and in-room workout equipment.
