THE CHRONOMAT IS BACK!

Originally launched in the 1980s, the Chronomat made the mechanical chronograph cool again. With its interchangeable rider tabs and the "rouleaux" or "bullet" bracelet it became an immediate success. Today, the Chronomat has been re-designed for a new era, bringing back the striking design elements that will make this iconic chronograph instantaneously recognizable on your wrist.

The new Chronomat collection is now available at [Breitling.com](https://www.breitling.com).

Dear Loyal Reader,

He's a former U.S. Congressman, a distinguished attorney, best-selling author and his work has been featured in *The New York Times*, *National Review* and *The Wall Street Journal*.

He's met and worked closely with Ron Paul, Ronald Reagan, Richard Nixon, Dwight D. Eisenhower, Gerald Ford and George H.W. Bush, to name a few.

And he's part of a research group that accurately predicted the dot-com crash of 2000, the recession of the early 1990s and the 1987 crash.

But for over a decade he has made a point to stay behind the scenes...

That is until now.

Today, something so big has begun to happen in America that he's decided to come out of retirement and reveal his true identity for the first time on this scale.

And in this [controversial video](#) he will tell you about a coming event that he believes will change your life.

Sincerely,
