

Reimagined airline cabins give everyone a window seat

Posted on April 6, 2021 by News Editor

New designs for airline cabins that have been recognized with Crystal Cabin Awards include a “coffee house” style that makes working on a flight easier, an arrangement that ensures everyone a window seat and one that accommodates a wheelchair within a row. The awards, which were delayed by the pandemic, will be given out in August at the Aircraft Interiors Expo in Hamburg, Germany.
