

# Tibet Airlines selects Recaro to outfit new A319neo aircraft

Posted on June 16, 2022 by Business Editor

Recaro has announced its BL3710 seat was selected by Tibet Airlines to equip the carrier's new A319neo.

The carrier has ordered 26 shipsets and first delivery is planned for September 2022.

Tibet Airlines also selected the CL4710 to outfit the aircraft's business class cabin.

Recaro says its bestselling BL3710 has been recognised for its ergonomic performance since entering the market in 2019.

Weighing less than 10 kilograms, the lightweight seat was developed to enhance comfort for passengers and minimise the total cost of ownership for airlines.
